

IMPORTANT – DONCASTER JOBS WEBSITE CHANGES/UPGRADE

As a registered DMBC jobs website user, we are pleased to announce that we will soon be upgrading our technology systems as part of our commitment to providing all our users with a convenient and up-to-date application process.

With our technology upgrade there are some changes that will affect you directly. We want you to be aware of the changes and ask you to read this email carefully to help ensure the transition to our new system causes you as little disruption as possible.

From April/May 2019 the Doncaster Jobs online platform will be moved and as a result all the data linked to your jobs account will be deleted from our servers. Existing account holders are encouraged to reregister once the new system is live. You will not be able to access your old account any longer after the closing date.

Therefore you should log into your Doncaster jobs account and save any completed online applications, along with any other data you may need to refer to, to assist with any future applications. Please [click here](#) for instructions on how to do this.

We will be launching our new platform very soon. The new platform will help us improve our customer service to you and provide you with an easier application navigation process.

We appreciate your patience during our technology upgrade. If you have any further questions regarding your jobs account, please email hrprecruitsupport@rotherham.gov.uk

Please be aware, registration on the new system will cover Rotherham Council, Doncaster Council, Doncaster Children's Services Trust and St Leger Homes vacancies. You won't need to have multiple accounts.
